

SURE GUNNESS WAS MURDERED

Brother Of Lost Husband Of Indiana Murderess Talks For Publication.

IS NOW A RESIDENT OF EDGERTON

Believed That His Brother Met Foul Play At Hands Of Woman He Married Through Matrimonial Agency--Dead Man Once Lived In Janesville.

(Special By Staff Correspondent.)
Edgerton, May 7.—Janesville and Edgerton's connection with the woman, Mrs. Helen Guinness of Laporte, Indiana, was fully established this morning when Carl Guinness, a brother of the lost husband of the woman murderess, told his story to a Gazette representative.
"Joseph Guinness, the dead man who is now believed to have been murdered by his wife, lived in Janesville during 1887 and 1888. A brother, Carl Guinness, now lives in Edgerton, and a daughter of the dead man by a former wife, lives with Elias Shimmensen on the Albion prairie four miles from Edgerton. Paul Olson and Hans Guinness, uncles of the dead man, are residents of Janesville and a second brother, Gustave, lives in Minneapolis.
"That woman killed my brother, I am certain," said Carl Guinness this morning. "He met her through some matrimonial agency, I think, and they were married in Chicago after she visited him in Minneapolis. I never saw her, but my brother Gust has, he went down to Indiana when my brother died four years ago.
"They told him that Joseph was killed by a meat chopper falling on his head and that he never regained consciousness. His wife got the life insurance money, \$5,000.
"Joseph was born in Norway four miles from Christiania. He came to this country in 1887, going directly to Janesville. He made here over a year and then went to Minneapolis with my brother Gust.
"He was married to Sophie Murch in Minneapolis and they had one daughter, who now lives with Elias Shimmensen now. She is thirteen years old and she should have had a part of her father's insurance money.
"My brother met Mrs. Sorenson through a matrimonial agency, I think. I do not know just when they were married, but I know that in 1903 their little boy, Philip Alexander, was born. My brother sent me his picture.
"I have not seen my brother since he married this wife who killed him, but I have heard from him. My brother Gust is going down to Laporte to see if he can get this money for Joseph's daughter by his first marriage and to see what can be done about it."
Carl Guinness has been a resident of Edgerton for many years, coming here in 1892. He is employed in the Andrew Johnson tobacco warehouse and his story of his brother's being murdered is generally believed by citizens here in view of the startling facts that have been disclosed by the investigation in the Guinness homestead in Indiana.
According to the story given out at the time of Guinness' death he and Mrs. Guinness came to Laporte from Chicago and brought with them considerable money. Part of it was evidently the \$5,000 life insurance money she had received by the death of her first husband, Max Sorenson, who died under mysterious circumstances in Chicago eight years ago. Here Mrs. Guinness bought a farm that had been owned by a questionable character for years and spent considerable money in improving it.
It was in 1904 that Guinness died. It was said that he was sitting near the kitchen stove when a sausage grinder which had been drying on the shelf that surrounded the pipe fell striking him on the head. A doctor was called, but the man died three hours later without being able to make a statement.
This is the story told Carl Guinness when he went to investigate his brother's death. It is not believed by Carl Guinness and he is confident that the woman murdered his brother for his insurance money and for what property he had.
According to Mr. Guinness' story, told this morning, Paul Olson, a tobacco buyer who lives at 308 West Third street, and Hans Guinness, who resides on Pleasant street near the city limits, are uncles of his and of the head man.
One strange feature of Guinness' story is that he repeats the opinion he expressed when his brother died. Many persons here remember that he told them his idea was that his brother was murdered and Guinness himself says he and his brother Gust have never had any other opinion on the matter.
Stop Work
(BY ASSOCIATED PRESS.)
Laporte, Ind., May 7.—Because of the heavy rain the digging for more bodies on the Guinness farm has been abandoned today, but the work will be resumed tomorrow. The coroner now believes that fully twenty-five bodies will be found on the farm property before the examination is completed. In all, including the bodies found in the ruins of the house, the total number of known dead now totals thirteen, several others having been found yesterday.
Late this afternoon it was found that the shed on the Guinness farm containing the bodies of the victims had been broken into and the bodies seriously disturbed.

SPENT MONEY IN VAIN EFFORT TO BE ELECTED

(SPECIAL TO THE GAZETTE.)
Manitowoc, Wis., May 7.—Socialists expended \$50.00 in the municipal campaign in which the party failed to elect a candidate, according to a statement filed by the party committee. All of the amount was for hall rent and literature and in commenting on the statement, the report calls attention to the fact that no money was expended for "boozing and cigars." The report does not include \$50 which was collected at a meeting addressed by W. D. Haywood. This money is to go to the defense of Steve Adams.

Marriages and Divorces: Records in the county clerk's office show that 121 marriage licenses have been issued thus far in 1908. If the average keeps up the aggregate for the year will be larger than ever before. Records in the office of the clerk of court show that there have been 36 divorces since October 1. Rock county's average of divorces per twelvemonth is fifty.

BUSINESSMEN WANT A WIDE OPEN TOWN

LaCrosse Not Pleased With Idea of Having Their City Thoroughly Moral.

(SPECIAL TO THE GAZETTE.)
LaCrosse, Wis., May 7.—A petition is being circulated among the business men of the city which will be presented to the mayor asking him to revoke the order recently made in regard to closing public gambling houses and questionable resorts. Since the closing of all places of both characters a month ago they have sprung up in residence parts of the city and are not under police surveillance, as heretofore. The petition alleges that for the good of the community it is believed to be advisable to allow the distilling of disorderly houses and gambling resorts.
The paper has received the endorsement of a number of the prominent business men but all fear to attach their names to the document.

GATHER TO HEAR WILSON'S SPEECH

South Carolina Farmers and Travelers to Hear Secretary Wilson.

(SPECIAL TO THE GAZETTE.)
Sumter, S. C., May 7.—This city is filled with visitors to an extent seldom witnessed here before. First and foremost among the attractions is the annual convention begun today by the South Carolina division of the Travelers Protective Association, which has attracted delegates from all the chief cities of the state. Another substantial contribution to the crowd is the large number of farmers who have come to hear the address of Secretary of Agriculture Wilson. Both the agriculturists and the traveling men will remain in the city two days and plans of an elaborate character have been made for their entertainment.
Helena, Mont., May 7.—This is the date fixed by the government for the inauguration of the irrigation project embracing the Sun river district in Montana, one of the largest undertakings of its kind in the country. When the engineer turns the water into the canals today it will mean the reclamation of some 17,000 acres of land.
The land embraced in this project is subject to entry in tracts of forty and eighty acres, the smaller parcels lying near the townships already laid out. In addition to the "form unit," there is a grazing area back of the irrigated land, subject to entry under the homestead law, of which each entryman may take up a tract sufficient to bring his entire claim up to 160 acres.
The price to be paid for these lands has been fixed at \$30 per acre, the cost of the construction of the works, and a charge of 50 cents per annum per acre will be charged for the water privileges and maintenance of the project. The original charge for construction is to be paid in ten annual installments of \$3 per acre each.

CHILDREN ARE SICK FROM EATING PILLS

Nine Children in Fond du Lac Eat Samples of Patent Medicine.

(SPECIAL TO THE GAZETTE.)
Fond du Lac, Wis., May 7.—The four children of J. L. Bradley, Eugene Stewart and William Maher have all been taken ill as a result of eating pills which have been left on the porches of their homes by men distributing samples for patent medicine companies. About the same time as these children were taken ill five other children on East Johnson street became sick as a result of eating the drug samples.

FIVE THOUSAND SAILORS MARCHED IN LINE TODAY

Rear Admiral Evans Reviews Great Army And Navy Pageant In Frisco.

(SPECIAL TO THE GAZETTE.)
San Francisco, Cal., May 7.—People of San Francisco and the Pacific coast states today saw and cheered more than 5,000 of Admiral Evans' sailor boys as they marched through the downtown business streets of the city over a line of march that extended for several miles. The spectacle was the most notable of its kind that has ever been seen in San Francisco. In addition to the blue-jackets the marchers included detachments of the regular army of the Presidio, National Guard, state and city officials and members of the orders of Native Sons and Native Daughters and a number of other patriotic and civic organizations.
The jockies came ashore early in the forenoon. Prior to the start of the parade they were assembled for formation in the streets south of Market street. The sailors from the battleship Connecticut were given the position of honor. Next in line came the boys from Vermont, the Missouri, Maine, Alabama, and other of the big ships of the battleship fleet. Sixteen naval bands were among the participants.
The military contingent, under the command of General Funston, was drawn up in line along the Battery and other streets on the north side of Market street. Every branch of the service of the United States army was represented. There were one company of engineers, fourteen companies of coast artillery, the entire eighth infantry, four troops of cavalry, three batteries of field artillery, a company of signal corps men, a corps from the hospital and the Third Artillery Corps Band. These made a total of more than 2,500 troops in line.
Notwithstanding the immense length and the great number of organizations taking part, the parade was started almost exactly on schedule time. In effect, all along the line of march the business blocks, office buildings and residences were ablaze with flags and bunting, gathered in festoons or stretched in long folds from roof to ground while from numberless flag-poles and windows the national colors fluttered in the fresh breeze, with here and there the dark blue of the admiral's flag. Everywhere the marching sailors and marines were greeted enthusiastically by the densely packed throngs of people along the route.
Rear Admiral Evans was the central figure of the occasion. Surrounded by the admirals and captains of his fleet, the popular naval commander reviewed the pageant from a raised and beautifully decorated dais in the grandstand, erected at a conspicuous downtown corner. Another notable figure in the reviewing party was Secretary of the Navy Mead. Secretary Mead was attended by Rear Admiral Henry Glass, retired; Lieutenant W. R. Miller and Ensign Motz. Other parties were formed by the state officials headed by Governor Gillett and the city officials with Mayor Taylor at their head.

JENKINS IS TO RUN FOR CONGRESS AGAIN

Congressman Issues His Formal Statement Asking For Renomination by Voters.

(SPECIAL TO THE GAZETTE.)
Chippewa Falls, Wis., May 7.—Congressman John J. Jenkins today issued a formal statement to the people of the eleventh congressional district, announcing his candidacy for renomination. He states that he has at all times favored public control of public service corporations and that so long as he serves in congress this question will have his active interest and cooperation.
"My position on the power of the government to regulate the railway companies, has, in fact, been more advanced than almost any other man in public life," he states. "My real interest has been in the power of the absolute power of the government, without any limitation whatever, to control all transportation lines, or, to control all of its interests. I am in favor of a revision of the tariff on protective lines, having in view at all times the protection of the American farmer and laborer as well as every other industry in the nation. It is my opinion that the tariff will be a matter of revision to conform with existing conditions. When the Dingley tariff was enacted I was active in securing for the congressional district, which I represent, protection for all of its interests. I should certainly, when the next revision is made, take an active part in securing for the interests of the district ample protection."

FALLS FROM BRIDGE AND DIES IN THE CITY HOSPITAL

Chippewa Falls, Wis., May 7.—Napoleon Waters, who fell from the Wisconsin Central bridge over Duncan creek here yesterday afternoon, died in a local hospital as the result of the injuries. Waters was in the center of the bridge when a freight train was approaching him, but before the entire train had passed he fell from the bridge. It is believed that Waters' nerve as the train rumbled by. Waters' home was at Barron. He was 74 years old and has two sons residing in Duluth.

SPEAKER OF HOUSE HAS 72ND BIRTHDAY

Receives Birthday Greetings From His Many Friends and Admirers.

(SPECIAL TO THE GAZETTE.)
Washington, D. C., May 7.—Speaker Cannon, whom Illinois republicans—some of them, at least—profess to believe will receive the Presidential nomination at the Chicago convention, was seventy-two years old today. The House was well aware that this was "Uncle Joe's" birthday for he was kept busy receiving the congratulations of friends and admirers at the Capitol and wherever he chanced to meet them. The Speaker is looking remarkably well for a man of his years and to all appearances would be physically able to withstand the strain of a summer campaign, should he decide to take to the stump. Several of the Illinois cities and towns, where they believe Mr. Cannon will be the next occupant of the White House, sent him birthday greetings today.
Mr. Cannon was born at Guilford, N. C., May 7, 1836, but at an early age moved with his parents to Indiana. He began life as a clerk in a grocery store. He studied law in Cincinnati and was admitted to the bar in 1861. He settled at Tazewell, Ill., soon after and was elected state's attorney there in 1861, serving till 1868. In 1875 he moved to Danville and was elected to the Forty-third Congress. He has continued to serve ever since, with the exception of one term. He was elected Speaker in 1903.

REGULARS CONTROL IN STATE OF UTAH

State Issues Attract Most Interest—Taft's Candidacy Will Not Be Opposed in Wyoming.

(SPECIAL TO THE GAZETTE.)
Salt Lake City, Utah, May 7.—Republicans of Utah are holding their state convention here today for the purpose of choosing six delegates and six alternates to the national convention at Chicago. State rather than national politics is uppermost in the convention. The "regular" organization is in control and the indications are that the candidacy of Secretary Taft will be favored. Senators Smoot andutherland and Congressman Howell will probably be among those selected for delegates to Chicago. The convention was called to order for the transaction of preliminary business at 11 o'clock this morning, taking an adjournment an hour later to give the committees time to prepare their reports.
Wyoming For Taft.
Lander, Wyo., May 7.—The republican state convention of Wyoming assembled here today to elect delegates to the Chicago convention. It is expected the candidacy of Secretary Taft for the presidential nomination will be adopted without opposition.

POLICE MUST STUDY FIRST AID RULES

Manitowoc Officers Are to be Put Through a Course of Sprouts in Medical Learning.

(SPECIAL TO THE GAZETTE.)
Manitowoc, Wis., May 7.—Under orders issued by the mayor and police commission, members of the police department are to undergo a course of study in "first aid to the injured" which will include instruction in reviving of persons taken from the water, binding up of injuries caused by a weapon or any instrument, etc. Health Officer Dr. Meany and City Physician Dr. Shimek, have held one session with the members of the force and weekly instruction will be given, at least one hour each week. The fire department men will get the same study.

HEAVY PENALTY FOR ASSAULTING SEILER

Exeter Farmer Who Was Fined by Circuit Court Settles with Victim.

Monroe, Wis., May 7.—Jacob Aobly, the Exeter farmer who was found guilty of assault with intent to do great bodily harm at the March term of the circuit court held here and was fined \$100, has settled the action for damages brought by his victim, Emil Seiler, who was brutally beaten. The terms of the settlement were \$2,200 in full payment and satisfaction of Seiler's claim. The money was paid over to Collin W. Wright, Seiler's attorney, by N. C. Durst of New Glarus, who came here to represent Aobly. Seiler is now in charge of a factory at Belmont.

The city council acting upon the request of local parties who have planned to hold a carnival here during the week preceding July 4th granted the use of a portion of the public square streets for the shows. The action aroused Willis Ludlow, who retired a week ago as mayor, and he now gives notice that in case any effort is made to hold a carnival on the square he will exercise his rights as a citizen and prevent it by injunction. A carnival was held on the square nearly every year of the Ludlow administration.

George Michaels was brought here yesterday to answer to a charge of selling liquor without a license at Brownstown on April 25. Hearing was set for May 22. Michaels is the son of P. H. Michaels, who was fined \$100 and costs on the same charge on April 30, when Michaels returned to Brownstown and closed up the place. Mr. and Mrs. P. J. Chenevix, who moved from Monroe three years ago to a large farm near Sand Creek, N. D., have gone to Chicago to reside.

HALEY MURPHY FEUD WAS GIVEN AIRING

In Municipal Court This Morning—Each Party Accuses Other of Throwing Stones.

Emory Haley appeared in municipal court this morning to answer to a charge of assault and battery preferred by James Murphy and entered a plea of "not guilty." The defendant not only denied the allegation that he had thrown large stones at the complainant but insisted that Murphy had thrown stones at him. "I haven't anything against him except that he choked one of my children, and am not looking for trouble," virtually declared the defendant. "I hope to die in my shoes if I ever throw stones at Jim Murphy." On promise of both parties to let one another alone, the case was adjourned two weeks. "I don't want to be a target for stones," muttered Haley as he was leaving the court room. "Keep out of my way then!" sang out the complainant, Murphy.

BROODED TOO LONG OVER FAMILY WOES

Theodore Karl's Mind Was Temporarily Unbalanced by Melancholy Musings.

Theodore Karl has recovered from the well known unsuccessful attempt he made to hang himself yesterday afternoon as well as from the temporary insanity which appeared to have overtaken him, and was released from the county jail this morning. Dependence induced by family troubles is said to have been responsible for his condition. He brooded constantly over his separation from his wife and four year old daughter who are living with Mrs. Karl's mother on a farm between Indian Ford and Edgerton. He walked out there from Edgerton last Sunday and the welcome given him by his little child, who came running down the road to meet him, so completely unmoved the man that he burst into tears whenever he narrated the episode to his fellow employees at Nelson's livery barn. The effort to end his life with a hitching strap attached to a rafter and tied about his neck, was made just after he had taken a horse out to the stable into the barnyard. The strap had about a foot of slack with the man standing and it was necessary for him to drop down into a sort of sitting position in order to have it take effect. He was black in the face when cut down by James Hunt and when, through the efforts of Dr. Charles Sutherland, he had been revived, he became so violent that it required five men to hold him. For this reason it was necessary to place him in the padded cell at the county jail. Not long after his incarceration he fell into a deep slumber and when he awoke this morning he was perfectly rational again. He seems to have no recollection, whatever, of the events of yesterday afternoon.

LOCAL PARAGRAPHS.

Myers to Referee: Harold Myers is to referee the interscholastic track meet to be held at Camp Randall, Madison, on June 6. Mr. Myers is a son of John Myers of this city and for several years has been one of the leading athletes of the University of Wisconsin.

Spoke in Milwaukee: Captain Phil Norcross was the speaker at the last of the spring meetings of the Loyd Legion in Milwaukee last evening. His subject was "Glimpses of the Southland." Mayor Governor Upham and James Monahan of Burlington were the other two speakers.

Mrs. Edward Smith: Mrs. Edward Smith, wife of the assistant street commissioner, was stricken with paralysis at her home, 55 Madison street, last evening. According to the attending physician, the stroke was a mild one, and complete recovery is to be anticipated.

Joint Social A Success: The joint social session of the G. A. R. and W. R. C. members last evening, was well attended and thoroughly enjoyed by the participants. Mrs. George D. Sweet of Chicago, who is a gifted elocutionist, gave a number of readings, which were much appreciated and the other literary and musical numbers, were also pleasing.

Union Temperance Rally: Under the direction of the local branch of the W. C. T. U. a union rally for temperance, by the members of four of the local congregations will be held at the Presbyterian church, Sunday evening, May 10. Miss Lillian Phelps of St. Catharines, Ontario, who is heralded as a gifted and forceful speaker, will address the gathering.

Gave Benefit Dance: Seventy-two couples for A. H. Taylor, given at East Side Odd Fellows hall last evening, and about \$75 was cleared. Mr. Taylor is a photographer by profession but has been ill and incapacitated for work for some time past.

Another Bicycle Stolen: Elmer Archer, who lives at No. 5 Logan street, is the latest victim of the bicycle thief. A wheel worth about \$30, which he left alongside several others in front of the Warner billiard room on Court street, last evening, turned up missing, when he went to get it about nine o'clock. A sixteen year old boy, who was hanging about the place most of the evening is suspected by the police.

Lease Fox Lake Hotel: Mr. and Mrs. A. P. Spooner have leased a summer hotel at Fox Lake and expect to take charge as soon as the resort season opens. The lake is located near Chicago and during the past few years has become one of the most popular watering places in the west.

Surprise Party: About forty couples surprised Miss Viola Luebke last evening at the home of her parents, Mr. and Mrs. P. E. Luebke, who reside at 28 So. River street, it being her sixteenth anniversary. The evening was spent in games, card playing and dancing, after which delicious refreshments were served. Music was also furnished by Mr. Johnson and W. A. Luebke. It was quite a surprise to Miss Viola and she received many handsome presents. A few people from out of town were present. All enjoyed themselves and parted for their homes at an early hour this morning wishing her many more happy anniversaries.

At High School: This morning at the high school Mr. Veyman gave the pupils a talk on "The Vagaries of the English Language." Illustrated with a number of humorous stories and poems. He brought out the different ways to make an article humorous, and the illness certain English words have to that which they represent. He illustrated this with the story of the Chinaman who, having spent much time in Canada to be a linguist, is describing the experience. The Chinaman said "2-2-2-4, den pully backa only."

Tom Dougherty Jailed: Tom Dougherty, who was fined yesterday for drunkenness was arrested again this morning for the same offense. Judge Fildes sentenced him to spend five days in the county jail and pay a fine of \$2 and costs with the alternative of five days more.

Rooming at Lock-up: For the second night in succession Frank Rothman, the Polack who was caught in the act of breaking into the J. L. Spellman cigar store, applied for lodging at the lock-up last evening. When told this morning that he would have to find some other regular shelter he said that he had obtained work with one of the river street junk dealers but would not have any wages coming to him until Saturday. Meantime he would have to live somewhere.

KENTUCKY SEEMS SAFE FOR TAFT

HIS FRIENDS CONTROL DESPITE
NUMEROUS CONTESTS.

STORMY DAY AT COLUMBUS

Ohio Democrats Nominate Judson
Harmon for Governor, Tom John-
son's Faction Being Utterly
Routed.

Louisville, Ky., May 7.—With the Taft men in control of the machinery, the state convention of the Kentucky Republicans called to elect four delegates-at-large to the national convention, Wednesday night took an adjournment until Thursday morning, pending the report of the committee on credentials. The committee has contested from nearly half of the 119 counties in the state to consider.

The chief friction has developed in the Fifth congressional delegation (Louisville), where the Fairbanks men are contesting the entire delegation. They charge that the Louisville police were used for purposes of intimidation, and other acts of fraud were committed. Similar acts were charged by the Fairbanks men of the Eleventh district, which is also contested entire. There seems little doubt that the Taft slate will be put through. The convention was in session but an hour Wednesday afternoon, and the Taft men captured the temporary organization.

Connecticut for Taft.
Hartford, Conn., May 7.—The Republican convention closed its two days' session here Wednesday by

Judson Harmon.

choosing a delegation of 14 to the Chicago convention. Ten of the delegates are instructed to vote and actively work for Secretary Taft, and four delegates go uninstructed by the district conventions which selected them.

Harmon for Ohio Governor.

Columbus, O., May 7.—In a tumultuous convention characterized by the most intense factional feeling, the Democrats of Ohio Wednesday nominated Judson Harmon of Cincinnati, attorney general of the United States under President Cleveland, for governor, and endorsed William Jennings Bryan, and instructed the delegates-at-large to the national convention to vote for him for president. A complete state ticket was nominated and former Gov. James B. Campbell of Butler county was endorsed for United States senator and delegates and alternates-at-large to the national convention selected.

Mayor Tom Johnson of Cleveland, after having met defeat in the opening session Tuesday night, renewed his fight against Harmon and for control of the convention, and was again worsted in one of the most bitter and exciting contests ever witnessed in an Ohio convention.

GREAT SKIN CURE STIRS EUROPE

Medical Profession Interested in Ex-
ternal Wash Which is Producing
Remarkable Results.

Instant relief and permanent cures have so invariably followed the use of an American prescription for the cure of skin diseases that European doctors, always zealous to learn in fields of medical knowledge, are still directing inquiries as to the ingredients of this external vegetable remedy.

The makers of the prescription, the D. D. D. Company of Chicago, are replying frankly to such European inquiries that this famous remedy is simply oil of white-ginger compounded with other vegetable ingredients of known healing power such as thymol and glycerine.

Apparently no case of no matter how long standing can stand against this simple remedy, known as D. D. D. Prescription. Here is a typical letter from Mrs. E. Payne of East Pittsburg, Pa.: "I had a horrible breaking out on my legs and feet, and tried nearly all medicines and salves without result. The first bottle of D. D. D. helped me and I secured a complete cure. That was two years ago and I have had no trouble since."

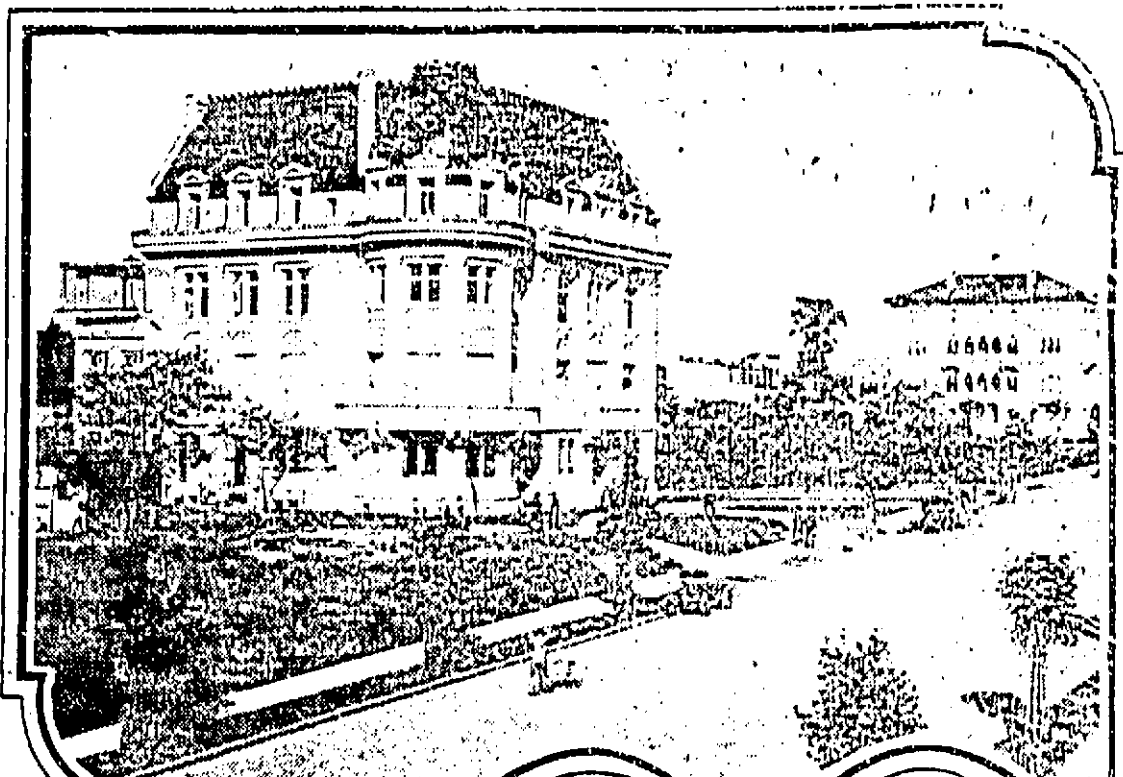

We have investigated the merits of D. D. D. Prescription and believe it to be the best and quickest cure for skin diseases. At any rate, we positively know that it takes away the itch just as soon as you apply a few drops of the soothing liquid. Call for free booklet on care and nutrition of the skin and ask for a cake of D. D. D. Soap.

CAUSE OF TORNADO.

By Hendrick.

Washington, D. C.—The recent tornadoes of the southern states furnish an interesting study as to the cause of climatic disturbances. In an interview with the weather bureau I had the cause clearly explained to me.

A glance at the weather map shown above for Saturday, April 25, demonstrates that there was an extremely low pressure prevailing in the lake region. This low pressure caused considerable commotion before the news of the tornadoes was received. On the other hand, there was a high pressure existing, as indicated, in varying degrees of intensity over the entire region east of the Rocky Mountains.

Nature was doing her best to equalize this pressure, and the result was heavy winds from the higher pressure to the low pressure in the lake region, but these winds always take a circular path.

Imagine an immense circular disk revolving about the lake region and you have the atmospheric condition on Saturday. This disk was revolving counter-clockwise. An object on the edge of this disk would rotate much more rapidly than one at or near the center. As this disk or whirlwind revolved we find the velocity greatest at the outside. The whole country was in what is termed a cyclonic condition

The Pass of Thermopylae

By Herbert Kaufman.

Xerxes once led a million soldiers out of Persia in an effort to capture Greece, but his invasion failed utterly because a Spartan general had entrenched a hundred men in a narrow mountain pass which controlled the road into Lacedaemon. The man who was first on the ground had the advantage.

Advertising is full of opportunities for men who are first on the ground.

There are hundreds of advertising passes waiting for some one to occupy them. The first man who realizes that his line will be helped by publicity has a tremendous opportunity. He can gain an advantage over his competitors that they can never possess. Those who follow him must spend more money to equal his returns. They must not only invest as much to get as much but they must as well spend an extra sum to counteract the influence that he has already established in the community.

Whatever men sell, whether it is actual merchandise or brain vibrations, can be more easily sold with the aid of advertising. Not one half of the businesses which should be exploited are appearing in the newspapers. Trade grows as reputation grows and advertising spreads reputation.

If you are engaged in a line which is waiting for a newspaper pioneer, realize what a wonderful chance you have of being the first of your kind to appeal directly to the public. You stand a better chance of leadership than those who have handicapped their strength by permitting you to get on the ground before they could outstrip you. You gain a prestige that those who follow you must spend more money to counteract.

If your particular line is similar to some other trade or business which has already been introduced to the reading public, it's up to you to start in right now and join your competitors in contesting for the attention of the community. The longer you delay the more you decrease your chances of surviving. Every man who outstrips you is another opponent who must be met and grappled with for the right of way.

STRAW VOTES

Straw votes never elect a man to office, but they sometimes indicate the direction of the wind, as does one recently taken by the publishers of Success Magazine.

This publication has among its list of subscribers 12,000 life members, scattered over every state in the union, and engaged in all sorts of occupations.

They are regarded by the editor as special correspondents, and he feels free to call upon them at any time for information on any topic of general interest.

In January last a list of questions covering public policy and including first and second choice for president, was sent out to this list of life members, and the May number of the magazine contains a summary of 10,000 answers received. The choice for president follows:

First Choice	Second Choice
President T. Roosevelt.....6,400	325
William J. Bryan.....1,178	695
William H. Taft.....1,110	2,569
Charles E. Hughes.....975	1,886
John A. Johnson.....192	328
Robert M. La Follette.....80	429
Tom L. Johnson.....57	160
Vice-Pres. C. W. Fairbanks.....33	81
Joseph G. Cannon.....26	18
J. H. Foraker.....25	81
George H. Cortelyou.....23	132
Joseph W. Folk.....22	47
Philander C. Knox.....17	15
William Root.....14	11
George Gray.....12	1

When the fact is considered that this list includes men of all parties, results are significant, and emphasize the fact that the president has a stronghold upon the hearts of the American people.

The second choice for Taft and Hughes is also suggestive, while the vote for favorite sons indicates that popularity is largely local.

That the president's reform policy has taken deep root, and is very popular is also shown. In answer to the question, "Would you support the president and congress in carrying out corporation reforms which would tend to the permanent betterment of our social conditions, even if it meant some personal sacrifice to you yourself in the way of money power," restriction of bank credits, and other matters affecting business?" only 175 out of 9,311 have voted "No," while to the question, "Do you on the whole approve the administration of President Roosevelt?" out of 9,317 votes 8,618 answered "Yes" and only 699 said "No."

This is popular sentiment from an intelligent source, and conservative men must recognize it. If there is any hero worship or fanaticism about it, it is in the air, and the atmosphere is pregnant with it.

The magazine is responsible, in a measure, for the sentiment created, but it is not a muck-rake publication, and has never been so regarded.

It is non-partisan, and has always stood for the best in civic and political life, while its moral tone has always been of the highest order.

Public sentiment is easily influenced, and is not always right, but the united sentiment of 10,000 thinking people means something because prejudice and ignorance does not enter into it.

ELECTRICAL DEVICES

The Electric News publishes some interesting facts regarding the uses of electricity, and the important part it is playing in the world of development. It says:

"The new shoe mending machine is a wonder. This machine, operated by electricity, does shoe repairing of all kinds in a jiffy. Soles are sewn on in about a minute, with edges trimmed and finished. A complete job of half-soleing and heel can be done in a couple of minutes while the customer waits. Soles can be mended on for 50 cents a pair and sewn on for 75 cents."

"An electric rat killer has been devised. It consists of a shallow tray with the bottom covered with small metal points connected with the positive and negative terminals of a high tension circuit. When the rodent steps on any two of the points it is instantly electrocuted."

"A German professor announces an electrical device to reduce the color of abnormally red noses. The device consists of a vibrator which, with one or two treatments, will bring the crimson nasal organ back to its pristine purity and whiteness."

"It has been said that modern business methods are of the push-the-button kind and when the list of electrical conveniences is perused this statement would seem to be nothing but the truth."

"For large business concerns, banks, etc., there is a small motor-driven machine which automatically counts coins and keeps a record of the total amount. Even the cash register is made in larger sizes driven by small motors. The adding machine is another device operated by electricity."

"Two of the most novel electrical desk devices are the motor-driven ink eraser and the motor-driven desk punch. The circular eraser, fastened to the tray motor by a flexible shaft, is revolved rapidly and literally grinds the words off the paper. The little punch will make forty thousand holes an hour in a number of different sizes. This device is important with the present systems of filing."

"The envelope-sealer is another time-saving device which automatically seals each letter at the rate of 8,000 envelopes an hour, moldering any size or style of flap and holding them until dry. The stencil addressing machine, motor driven, are also extensively operated where permanent addresses are used. There is also a machine to affix the stamps."

Fire losses in America and Canada, from January 1 to May 1, 1908, averaged \$1,000,000 a day, a heavy increase over the same period of last year. The outlook for fire insurance companies is not very promising, with this kind of a start and reduction of rates is not a part of the program.

When 23 life insurance companies retired from the state, the first of the year, as the result of vicious legislation, the supposition was the Northwestern Mutual of Milwaukee would reap a harvest, but this has not occurred. Competition is education in the life insurance field, and monopoly proves a handicap to business.

A deposit slip 62 feet long, accompanied by checks aggregating \$50,000, was handed into the teller's window of the First National bank of New York, Ohio, the other day, by a manufacturing concern, and kept the bank force busy half the night.

An exchange suggests that it takes more muscle than a man can acquire playing golf for a month, to chase a lawn-mower for an hour, and the fellow evidently knew what he was talking about.

There are 20,000,000 horses in the United States today and they are worth a lot of money.

Uncle Remus, The Home Magazine, published by the Sunny South Publishing Co. and edited by Joel Chandler Harris, celebrated its first anniversary by absorbing the Home Magazine. The combined circulation of the two publications is something like 200,000.

Mr. Harris gained a national reputation with his "Brother Rabbit and Uncle Remus" stories and his magazine sparkles with wholesome and original matter. It is published at Atlanta, Georgia, and is well worth the price, one dollar a year.

THE PLANT WHICH FORECASTS THE WEATHER.

* Pictures above show Prof. J. T. Nowack, his laboratory and the conditions of the weather plant which enable him to forecast the weather, earthquakes and many other phenomena of nature.

London, Eng.—In a quiet suburb of London Professor Nowack, with his so-called "weather plant" is attracting international attention by his ability to forecast phenomena of nature from a month to ten years in advance.

In 1892 Professor Nowack informed his majesty the king of Italy that Sicily would, between June and August of the year following, be visited by great earthquakes after simultaneous eruptions of Mount Etna and Mount Vesuvius, events that were justified to the letter. He informed the Imperial Turkish embassy in Vienna on July 14, 1891, that an earthquake would be felt in and around Constantinople on the following day. The forecast proved correct, to the great amazement of his majesty the sultan. The professor further predicted the earthquake of Adrianople, 1895, and Salonica, occurring in 1902; and also personally in advance, of the earthquake which took place in May, 1905, in Constantinople. He also forecasted the fire dump explosion which took place in Staffordshire in 1899, and resulted in the loss of seventy lives.

Professor Nowack, who is an Australian born, was a comparatively young man when he made the remarkable discovery of the behavior of this strange plant. He immediately gave himself up to his study and for years traveled extensively over the world. Through the encouragement of King Edward he opened a laboratory in London and introduced his new system of forecasting weather conditions. He has also a station in Vienna and hopes to open another in New York the present year. This will be followed by a series of stations in Bombay, Tokyo, San Francisco. The diagram shown above indicates a few of the conditions of this sensitive plant. Every change in the position of the leaves

Above, Over and On.
The three words, above, over and on are nearly synonymous, but there is a clear distinction between them when they are used literally. The stars are above us, but they are not above us, as a cloud is over the sea; nor are they on us, as a man's hat is on his head. The hat and the cloud are above, but the stars are not over, nor are the clouds on us.

Pleasant for the Judge.
At the police court of a provincial French city an old puncher was condemned for the twentieth time. At the moment that the gentlemen led him away he said to the judge in a benevolent voice: "Don't be disturbed, judge. You shall have your game all the same for dinner this evening."

Her Superiority.
Woman's superiority is exhibited in her ability to sew without putting a knot at the end of her thread.

FIRST MOVE WAS MADE BY BROWN

IN THE MATTER OF THE HEAD OF THE POLICE FORCE.

SERVED PAPERS WEDNESDAY

Complaint and Summons Were Served on George M. Appleby Last Evening.

Last evening Sheriff Fisher served the summons and a copy of the complaint upon George M. Appleby in the action of the State of Wisconsin on behalf of John Brown vs. George M. Appleby. This is the beginning of the actual legal battle which will decide as to the validity and effect of chapter 41 of the laws of 1907, which amends a previous statute regarding the fire and police commission and its powers. The action is in the nature of a quo warranto proceeding and is signed by John Cunningham as attorney for the plaintiff and F. C. Hughes of counsel.

The complaint in substance states that the city of Janesville is incorporated under a special charter, the same being chapter 221 of the laws of 1882 and the subsequent amendments thereof. Section 2, chapter 2, of this charter provides for a city marshal among other officers. Section 4, chapter 2, provides for the election of this marshal by the council and his salary, while section 18 of chapter 2 provides for his powers and duties. Section 4 of chapter 12 says: "No general law of this state shall be considered as repealing, amending or modifying the same unless such purpose be expressly set forth in said law."

The complaint then goes on to state that all this is still in effect and that the plaintiff, John Brown, was duly elected by the council according to the provisions of the charter and has otherwise complied with the law as regards his oath and bond. The defendant, however, claiming that he was chosen to the office of chief of police through an appointment by the fire and police commission purporting to have been made under the provisions of chapter 61 of the laws of 1907, is acting as the city marshal and refuses to permit the plaintiff to hold his office.

New Law Not Applicable
The complaint also states that the new law does not apply to cities unless they have a chief of police which Janesville does not have. Also, that the law does not purport or in fact repeal or modify the charter of this city as to the city marshal and that therefore it is not applicable to Janesville.

It ends with a prayer that the defendant be ousted and that the plaintiff be given the office together with costs.

Basis of Complaint
The complaint seems to base its contention on the fact that in the charter the head of the police department is called a city marshal and in chapter 61 of the laws of 1907 the same officer is designated a chief of police. The other point is that the new law in question does not sufficiently designate Janesville as one of the cities to which it is meant to apply, as to repeal or modify the old charter.

The case will be closely fought on both sides and will undoubtedly go to the supreme court, whichever side wins in the circuit court. Atty. W. G. Wheeler has been retained by Mr. Appleby to look after his case.

Chief Appleby will still continue to manage the office of head of the police department until the matter is decided, which may come up within a few days in the circuit court if an agreement can be reached between the attorneys. Mr. Brown will continue his duties as patrolman for the present at least.

TWO CORPORATIONS HAVE CATALOGUES

Gazette Printing Company Has Just Completed Work for Lewis Knitting Co. and Hough Shade Corporation.

Some very attractive printed matter in colors has recently come from the printing department of the Gazette for the Lewis Knitting Co. and the Hough Shade Corporation. A half million two color folders advertising the porch products of the Hough Shade Corporation have been completed, and these are distributed in every state in the Union. The work was very nicely executed and was furnished in a comparatively short time. A booklet of the new product of the Lewis Knitting Co., known as Salsbrook union suits for summer, has just come from the press. It is in two colors on enameled stock, illustrated with half tones and represents another of the many lines in knit goods of this concern.

It's an important event in the life of man when he attains his majority—and it's no less an important event in the life of a successful store that has continuously served the people of Rock County more than 35 years. In the beginning it was a very little store to be sure, (known as The Lowell Hardware Co.) compared with its present bigness as The White House Stores with the largest retail organization and building in Janesville. Only one year ago we celebrated the re-modeling of this great store with a Jubilee Sale and we again dedicate this Jubilee month to a continuous celebration—A month of keen merchandizing designed to demonstrate to the customers who have made possible Leonard-Underwood Co.'s success, that their patronage has been placed with a concern that knows how to "make good" most decisively in value-giving.

Conditions are peculiarly favorable to this sort of Jubilee, and we can promise a series of celebration sales unknown to the people of Janesville. In the past few weeks we have made heavy purchases in anticipation of this sale, and have taken advantage of trade conditions that will bring YOU great savings. Hundreds of dollars will be saved to our customers this month. Sale begins tomorrow morning and continues every day of May.

Watch for our advertisements—"We reduce the cost of living in Janesville."

MANUEL PROCLAIMED KING

YOUNG RULER OF PORTUGAL TAKES THE OATH.

Picturesque Ceremony Takes Place in Presence of Brilliant Assemblage in Parliament House.

Lisbon, May 7.—Manuel, the boy king of Portugal, solemnly took the oath of allegiance to his people Wednesday and with all the traditional courtly observance was proclaimed the ruler of the nation.

The ceremonies took place in the presence of a brilliant assemblage made up of peers, deputies, court functionaries, members of the diplomatic corps and their wives, the delegates to the International Telegraphic conference now being held in this city, the patriarch of Lisbon and all the prelates of Portugal, as well as a large gathering of women of the nobility.

King Manuel, who presented a striking figure in his cloak of velvet and ermine, and who was followed by his aids and pages, was ceremoniously escorted to the throne. On his majesty's right, resting on a credence table, was the royal crown, which, according to tradition, King Manuel does not wear and which is consecrated to the Virgin Mary, the patroness of Portugal.

With the crown were the royal standards, the sword and the crucifix and the famous missal of Goncalves, the Portuguese missionary. Holding the royal scepter in his left hand, the king placed his right hand on the sacred book of the Gospels and swore to maintain the Catholic religion and the integrity of the realm and to observe the constitution and laws of Portugal. After the oath had been taken King Manuel read the following: "My ideal is the nation's prosperity, and my ambition is the winning of my people's love."

From the balcony of the parliament building Manuel was formally proclaimed king by the grand standard bearer of the realm, whereupon the shouts of the heralds of "Long live the king" arose, and the booming of guns carried the news throughout the city.

WANT BILL LIKE VREELAND'S.
 Republican Congressmen Name Committee to Draw Up New Measure.

Washington, May 7.—At 11:12 o'clock Wednesday night the Republican caucus of the house committed itself by a vote of 116 to 21 to the principle of commercial paper as an asset upon which to issue additional circulation in time of emergency.

This is in accordance with the Vreeland bill, but by a separate action the resolution was so amended as to eliminate Mr. Vreeland's name from the bill. By still another vote the caucus decided to recommend the appointment of a committee to consider the currency question and report a bill at the next session of congress.

Coupled with this provision was another providing for the immediate appointment of a committee of five members to draft a new bill in accordance with the action of the caucus and along the general lines of the second Vreeland bill.

In accordance with this action the chair appointed Messrs. Vreeland of New Jersey, Burton of Ohio, Weeks of Massachusetts, McKinney of Illinois and Knowland of California. Under the terms of the resolution the committee will be expected to report a perfected bill to an adjourned conference to be held next Monday evening.

STILL AGAINST THE CANTEEN.
 House Votes Against Its Reestablishment in Soldiers' Homes.

Washington, May 7.—By the overwhelming vote of 167 to 46 the house of representatives Wednesday again went on record against the reestablishment of the canteen in national soldiers' homes. In the course of the discussion a man giving his name as George F. Gridley of Providence, R. I., unfurled an American flag and proceeded to make an address from the gallery on the temperance question. He was promptly taken out.

The senate passed a bill prohibiting the employment within certain hours of children under 14 years of age in the District of Columbia in any factory, workshop, telegraph office, restaurant, hotel, apartment house, saloon, pool or billiard room, bowling alley or theater or in the distribution or transmission of merchandise or messages. No such child is permitted to work at any employment for wages during school hours nor before six a. m. nor after seven o'clock p. m.

The conference report on the army appropriation bill carrying an aggregate of \$96,377,246 was adopted. This amount was \$3,463,000 less than the bill carried when first passed by the senate.

Destructive Fire in Eau Claire.
 Eau Claire, Wis., May 7.—Fire starting from an overheated smokehouse Wednesday practically destroyed the main building of the Drummond Packing company. The Eau Claire box factory, adjoining, suffered also. The loss is \$15,000; insured. About 100 men are temporarily made idle.

The Bishop of Washington Elected.
 Washington, May 7.—Rev. Charles Henry Brent, bishop of the Philippine Islands, was elected bishop of the Episcopal diocese of Washington, in succession to the late Rt. Rev. Henry Yates Satterlee, at Wednesday's session of the thirtieth annual conference of the diocese.

Cuba's Sugar Crop Assured.
 Havana, May 7.—The rains are now general and the sugar crop is assured.

MAGNIFICENT PARADE OF FLEET AT SAN FRANCISCO.

CITIZENS TAKE HOLIDAY

Rear Admiral Evans on Bridge of Flagship—Elaborate Program of Entertainment Is Begun.

San Francisco, May 7.—Through the lowering rocky portals of the Golden Gate into the harbor of the city of a hundred hills into a new San Francisco, risen from the ruins of two years ago, the Atlantic battleship fleet steamed Wednesday in review of a multitude unnumbered.

It was the same imposing pageant of immaculate white ships that sailed from Hampton roads nearly five months ago in the wake of the president's flag, but with the splendid accomplishments of a record-breaking cruise of more than 14,000 miles and three weeks of wonderful target work behind it. The white anchored, four-starred blue flag of the secretary of the navy, flying from the main mast of the trim little gunboat Yorktown, fluttered the welcome of the navy, while the governor of California, the mayor of San Francisco and the people of a hundred towns and cities voiced the greetings of the enthusiastic west.

All Business Suspended.
 San Francisco, Oakland and other cities nearby all took a holiday to witness the coming of the fleet. There was a complete cessation of business and the streets in the downtown section were deserted. More people came into the city Tuesday night and Wednesday morning than left during the terror and homeless days following the fire.

At night the city was gay with merry-making and the long program of entertainments planned in honor of the fleet was begun. Streets and buildings were illuminated for the first time in the history of the new city, many of the giant skyscrapers that have risen upon the sites of less imposing buildings destroyed being outlined in a fire of electric lights.

Official dinners, band concerts and a reception and ball at the Fairmount hotel with 5,000 invited guests were features of the first evening of the fleet's stay.

Entrance of the Fleet.
 The fleet threaded its way through the crowded harbor, past the islands and ferry lanes and reaching far out to the Oakland shore, turned at last when opposite Hunter's Point, and, pointing back toward Golden Gate to face the incoming tide, steamed into anchorage formation.

The battleships, having the right of way, were first to let their anchors go. The 16 veterans of the Atlantic cruise, augmented by two battleships recruited here for the remainder of the trip around the world—the Nebraska and Wisconsin—occupy the two inside lines of the four columns of ships now in the harbor. The armored cruisers of the Pacific fleet have the line nearest the Oakland shore, while the little black destroyers of both the Atlantic and Pacific fleets are berthed close in toward the San Francisco water front. The excursion fleet was kept out of the warships' pathway by a patrol of

For Genuine Baked Beans Get

HEINZ

Here's the fact we are hammering on; HEINZ Beans are BAKED—not merely steamed or boiled; but actually baked in dry-heated ovens, after being parboiled just enough to loosen the skin and slightly soften them.

They are mealy and tender; they are mellow and smooth—each bean is absolutely uniform in its goodness, without even a suggestion of that soggy which any other method of cooking will produce. Why then, after knowing this, eat anything but HEINZ baked beans?

Three kinds: Plain Pork and Beans (Boston Style); Vegetarian—without Pork; and With Tomato Sauce.

In the two latter the beans are baked with a rich, delicately-spiced sauce made from red-ripe tomatoes, being blended in such a way that the piquant flavor penetrates the entire bean.

Piping hot, fresh from the ovens, HEINZ Baked Beans are sealed in HEINZ Improved Tins (sterilized before and after filling) bringing the flavor and purity unaltered to your table.

Prices 10c, 15c and 20c, according to size.

revenue cutters, and all ferry service was suspended during the parade.

Rear Admiral Robley D. Evans, commander-in-chief of the Atlantic fleet and just now in command of the assembled ships of both oceans, stood on the after bridge of the Connecticut as the famous flagship led the way through the harbor's gate. His active naval career is to close on Sunday next, when he will be formally relieved from command. Both because of illness and the death of a favorite grandchild, Admiral Evans will be unable to participate in any of the functions planned in honor of the officers.

After the fleet had anchored the government customs launch Harlow put off from Mission street wharf, bearing Mayor Taylor and the reception committee to give the city's official greetings and proclaim formal welcome to Rear Admiral Evans and the sailors.

MINER'S HORRIBLE ACT.
 Ties Dynamite to Neck and Calls Women to See Explosion.

Virginia, Minn., May 7.—Thomas Urin, a miner, tied a stick of dynamite to his neck while sitting in the dining room of his boarding house. He called the four women in the house to witness the explosion, and when they were assembled, lit the fuse. When the women saw the fuse sputter they ran screaming from the house. The explosion wrecked the house and injured one of the women. All of Urin's remains have not yet been gathered together.

REAL ECONOMY

—the kind that means getting the most for your money in the long run—generally takes more note of quality than price. And this should apply with peculiar force to the buying of a furnace. For it is a fact which will be readily conceded by many people who have tried them—that a poor furnace is dear at any price.

ROBINSON FURNACE is the only tubular furnace that has a direct draft—full reversible flue, larger heating surface, large ash pit allowing free circulation of air, and many other advantages. Let us send you our catalogue, or call and we will demonstrate.

BIBLE TALK ON
SECOND COMING
OF JESUS GIVEN

L. SCHMIDT GIVES REMARKABLE
SERMON LAST EVENING.

QUOTES MATTHEW 24:V27

His Services Here Will Close This Evening, When He Goes to Madison.

L. Schmidt, the Home Missionary, gave a remarkable sermon on Jesus' second coming at the Salvation army hall last evening. He took his text from Matthew 24. He said in part: "It is strange how some ministers dare to preach to congregations that Jesus comes to those who die, or comes to them at conversion; such doctrines are the greatest error and deception that possibly can be heaped on the people. When Jesus comes again every eye will see Him, for we read in Matt. 24:27, Luke 9:26, Rev. 1:7, Acts 1:11, Daniel 12:2, Isa. 26:20, Ps. 96:11-13, Zech. 14:3, Matt. 24:27, 1 Thess. 5:2, 1 Tim. 6:14-16, 1 Pet. 1:7, 1 John 2:28, 1 John 3:2, 1 John 4:17, 1 John 5:11, and many other places in the Bible, the book which tells us the true story: 'As the lightning cometh out of the east and shineth even unto the west, so shall also the coming of the Son of man be.' Such a description cannot be applied to the only death hour of the Christian, nor yet to the quiet working of the Holy Spirit at conversion. Jesus will come personally with all His angels. Zechariah 14:5 shows this. Job also writes about it in this manner—Job 19:25-27. Abraham looked for the coming of Christ in this manner—Heb. 11:10. David, the sweet singer of Israel, contemplating the coming of Christ, said: 'He shall judge the world with righteousness, when He cometh.' Isaiah, the gospel prophet, exclaims: 'He will come, and will wipe away tears from off all faces; all will see Him and say, Lo, this is our God.' Daniel tells us that when Jesus comes, the dead which sleep in the dust of the earth shall awake—Dan. 12:2. Every Christian may know, and no minister need be in error concerning the coming of the Lord. The Bible gives a beautiful story from beginning to the end like a golden cord. Ministers who have sacrificed truth to gain the favor of men will discern the character of the word of God when He comes. Every emotion of soul, every life written, every word uttered, every act that led men to rest in a refuge of falsehood, has been scattering seeds; and such ministers who have preached of error, deception, lies, and denominational doctrines, and opposed the truth of the Bible, will see it in the wretched lost souls around him, when Jesus comes. The Lord pronounces a great woe upon false preachers and such who deceive the people, in Jer. 8, Eze. 13, 1:16, Jer. 23 and 25, Isa. 28 and 29. At the coming of Christ the wicked are blotted from the face of the earth. The whole earth appears as a desolate wilderness, the ruins of cities and villages destroyed by the earthquake, uprooted trees, rugged rocks thrown out by the sea or torn out of the earth itself, are scattered over its surface, while vast caverns mark the spot where the mountains have been rent from their foundations. For six thousand years Satan's work of rebellion has made the earth tremble. Even the wicked are now placed beyond the power of Satan, to realize the effect of the curse which she has brought. The wicked before their final destruction, will unite in heaping their bitterest condemnation upon the false ministers and unfaithful pastors for not teaching the real truth, Revelation 20:4-6, 1 Cor. 6:2-3, Jude 6, shows this earth will then be desolate for 1,000 years, Satan on it alone."

Mr. Schmidt will deliver his last lecture this evening at the Salvation army hall, on the topic, "Ten Fundamental Bible Principles as Found in Rev. 12:17 and 19:10." Tomorrow he will go from here to Madison.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least so says Dr. Shoop, and he is certainly right. Dr. Shoop's Headache Tablets—these blood pressure away from pain centers. Headache, pain, congestion, is a common cause, though slight, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is certainly, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the congested blood pressure.

MADAME AMES AS ELSA IN "LOHENGRIIN."

Chicago, Ill.—Emma Ames, the noted grand opera singer, has come out strongly for men's rights in contrast to women's rights. She has formed a club known as the "Men's Rights society." Its purpose is to put a stop to intrusions of the fair sex at the ballot box, in the business world, and in men's private matters. In a recent interview she said as follows:

"All this contention we hear about women needing the vote is foolish. Is there a country in the world where women are given more liberties than here? And aren't they permitted to vote through the men, the world over? Of course they are. The trouble is they don't know they have a good thing. My plan it is made beautiful. That is woman's sphere."

SENATOR ALBERT BEVERIDGE AT LEFT AND SENATOR HENRY CABOT LODGE AT RIGHT.

By Hendrick, "STAFFED"
Washington, D. C.—It now looks as though the choice of the republican political powers would fall upon Senator Albert Beveridge of Indiana for temporary chairmanship of the republican national convention and upon Senator Henry Cabot Lodge of Massachusetts for permanent chairman. The temporary chairmanship probably lies between Senator Beveridge and Senator Long of Kansas and Senator Doolittle of Iowa, with chances favoring the former. It can be said that the presiding officers will be chosen absolutely without regard to the political ambitions of any of the presidential aspirants. This is the reason that Senator Lodge of Massachusetts seems the logical choice for permanent chairman since he has endeavored to hold himself aloof from all factional party differences and will undoubtedly be entirely acceptable to all parties concerned.
The temporary chairman of a national political convention is chosen practically for one thing and one alone. When convention proceedings open his introduction to the delegates is the first bit of business transacted and the speech which he makes upon introduction is the first utterance on the convention floor. It is always the aim to choose a temporary chairman who is gifted with surpassing powers of eloquence so that this first clarion note of oratory may be thoroughly enthusiastic inspiring. The youthful senator from Indiana will measure splendidly to this size. The sole possible objection to him would be that he hails from a state which will present

GOVERNOR SPARKS OF NEVADA HAS STROKE OF PARALYSIS.

Reno, Nev.—Governor John Sparks lies at his home in this city suffering from a stroke of paralysis. He is unable to move either of his hands and is in a pitiable condition. This is all the harder on the governor on account of his energy and desire to be up and doing. His mind remains perfectly clear, but the confinement prevents him from attending to his duties as governor of Nevada.

Governor Sparks, during the Goldfield trouble, received much criticism from his own state and from President Roosevelt when he called upon the government troops to assist in putting down the strike. It is said that the worry over this troublesome proposition had much to do with his break down.

HERALDS SUCCESS AS
COMING PLAYWRIGHT

Rev. L. J. Vaughan's Production, "A Woman of the West," Favorably Commented on by Chicago Critics.
Chicago dramatic critics are heralding Rev. L. J. Vaughan as a coming playwright of prominence. His new production, "A Woman of the West," is being given at the Bush Temple, which is under the management of Harry Holbrook, the Chattanooga man, and all the Chicago papers speak most favorably of it and of the author. The Inter-Ocean said today:

"A Woman of the West," a melodrama written by the Rev. L. J. Vaughan, is a promising comment at the Bush Temple theater this week. There are unusual features about the production of this play. Its author is a Roman Catholic priest who was once an actor, and who is deeply interested in theatrical affairs, with the purpose of bringing about a closer relationship between the church and the stage. One of the scenes in his piece shows the celebration of midnight mass.

"The episode is brief, and being handled with the utmost reverence, is highly impressive. The plot progresses for little more than two minutes, beginning with the sanctus and terminating with the offertory, when it is interrupted by a melodramatic climax, one of the characters rushing in to bring the news of the dynamiting of a mine by the villains.

"Of the rest of the play little need be said. It is concerned with the troubles of a ranch Irish woman, 'the woman of the west'—who owns a valuable mining property on which some conspirators of evil minds have designs. With the exception of the mass scene it is composed of the ingredients of popular melodrama, in which unassuming class it belongs. Annie Muck Berlin, an actress of reputation in bygone days, has the leading role, supported by the usual coterie of Irish Temple players."

QUEEN VICTORIA'S HAIR.

Its Greatest Profusion Was Always a Cause of Wonder.

Even at the age of 80 years, Queen Victoria's hair was a marvel of luxuriance. The court physician, following Prof. Unna's discovery, undoubtedly treated her Majesty's scalp with a germ destroying preparation, that was not made public. It is now known, however, that the remedy for dandruff, the germ destroying agent, is embodied in Newbore's Hair-oil, the only hair preparation on the market that destroys the dandruff germ. Without dandruff, hair will grow profusely, and falling hair will be stopped. "Destroy the cause, you remove the effect." Sold by leading druggists.
